Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/527,723	Applicant(s) BROSE ET AL.	
	Examiner Jermie E. Cozart	Art Unit 3726	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: On **page 3**, **paragraph [0009]** is objected to because it refers to claims 1 and 8 which have been canceled, therefore it is suggested to delete or amend the paragraph; On **page 12**, **paragraph [0044]**, *line 12*, "n" is objected to because it is not a proper word, therefore it is suggested to change "n" to -in- -. Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 17 and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Tassakos (DE 199 30 087 A1).

Regarding **claim 17**, Tassakos discloses a device (1) for mounting a flap (4) on a work-piece (5) comprising a gripping tool (2) for gripping the flap (4), the gripping tool guided using a robot (1), a sensor system (9) fixedly connected to the gripping tool (2) in such a way that the sensory system (9) is capable of taking different measurements. Tassakos discloses an open loop control system (6) for open-loop controlling the robot (1) and the gripping tool (2). Tassakos discloses an evaluation unit which is in the form a central processing unit (cpu, 7).

Art Unit: 3726

Note that the sensor system being "capable of measuring together both a selected region of the flap and a selected region of the work-piece with the at least one sensor and generating an actual measured value based on a position of the selected region of the flap and a position of the selected region of the work-piece" is a recitation of the intended use, and a recitation of the intended use of the claimed invention must result in a structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the claim.

Regarding **claim 18**, the sensor system (9) is optical sensor (paragraph [0046], line 2) which is essentially capable of functioning as an optical gap measuring sensor.

Allowable Subject Matter

4. Claims 10-16 and 19-22 are allowed.

Response to Arguments

5. Applicant's arguments with respect to claims 17 and 18 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

Art Unit: 3726

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
